

A COMMERCIAL LEADER FOR THE AGENTIC AI ERA

Phil *Patterson.*

Eighteen years turning deep-tech into *commercial reality* — venture, Web3, and now *agentic AI* for businesses that actually want to ship.

● AVAILABLE FOR AI CONSULTING & FRACTIONAL COMMERCIAL ENGAGEMENTS

Phil is a commercial operator who has spent his career on the unglamorous side of frontier technology — getting it bought, sold and adopted. He has raised £10m+ in venture capital, secured \$1.2m for a Web3 ecosystem, and grown sales pipelines by 117%. Today he runs **Blue Canvas AI**, a consultancy helping SMEs, scaleups and enterprise teams convert AI hype into governed workflows that move the P&L.

§ Services

HOW I ENGAGE · FOUR MODES

- 01 **Agentic AI opportunity sprint**
Map workflows, quantify ROI, prioritise pilots and define risk controls.
- 02 **AI operating-system build**
Proprietary agentic infrastructure: sales, finance & ops automations; internal knowledge agents; adoption.
- 03 **Fractional commercial AI lead**
Partner strategy, GTM design, fundraising narrative and enterprise sales.
- 04 **Sovereign AI & decentralised identity GTM**
Strategy for DID, Web3, policy and government-adjacent products.
